Description of change

To introduce an outer box for large orders and adjust box quantity for multiple products.

Reason for change

To optimize box filling factor and overall weight.

Impact for the customer

The customer will receive an outer box with a defined quantity instead of single packaging. There is no impact on specifications or performance of the filter. Single orders are still possible.

Identification

Identification will be possible with the lot number, date code, and the below-mentioned quantity for orders.

| Schaffner Description | Before change | After change |
